

Aaryatech™ Behavioral Uncertainty Matrix

Report 3 of 6 -- Demonstration Run

Aaryatech Behavioral Joining Intelligence -- ABIDS Demonstration Run

This analysis uses a purpose-built DEMONSTRATION DATASET created to prove the ABIDS method end to end. It is not V Dart's or any client's real historical data.

Business Question

How confident can we actually be in each behavioral finding, and what do we still need to learn?

What We Found

- Of 14 observed mechanisms, 11 have been formally statistically tested; the rest remain at the observation or hypothesis stage.

What The Evidence Supports

- 3 mechanisms reached SUPPORTED evidence grade (statistically significant AND a non-trivial effect size). 2 reached WEAK. 6 were INCONCLUSIVE.

What We Do Not Yet Know

- Formal Intelligence State classification (ESTABLISHED / EMERGING / AMBIGUOUS / INTELLIGENCE GAP) is marked METHODOLOGY_PENDING throughout -- the evidence thresholds for each state have not yet been scientifically validated.
- No mechanism in this report has been held-out validated.

Why This Matters

Most analytics tools hide uncertainty behind a confident-looking chart. This matrix makes it visible on purpose -- an Intelligence Gap is a finding in itself, telling the client what to investigate next, not a failure of the analysis.

What To Investigate / Test Next

- Prioritize held-out validation methodology approval so mechanisms can move from tested-but-unvalidated to a formal Intelligence State.
- For mechanisms still at OBSERVATION_ONLY, consider expanding the human-reviewed sample before drawing conclusions.

Evidence Status by Mechanism

Mechanism	Evidence Stage	Grade	Human-Reviewed Evidence	Model-Applied Evidence
Status Quo Bias	CORRELATION_TESTED	WEAK	25	915
Loss Aversion	CORRELATION_TESTED	SUPPORTED	0	199
Choice Overload	CORRELATION_TESTED	INCONCLUSIVE	0	286
Friction	CORRELATION_TESTED	WEAK	80	1656
Endowment Effect	HYPOTHESIS_PROPOSED_NO T_TESTED	not tested	2	0
Reciprocity	CORRELATION_TESTED	INCONCLUSIVE	0	364
Anchoring	CORRELATION_TESTED	INCONCLUSIVE	8	0
Confirmation Bias	CORRELATION_TESTED	INCONCLUSIVE	0	298
Peak-End Rule	HYPOTHESIS_PROPOSED_NO T_TESTED	not tested	1	0
Identity Signaling	CORRELATION_TESTED	SUPPORTED	0	160
Commitment / Consistency	CORRELATION_TESTED	SUPPORTED	0	220
Reactance	HYPOTHESIS_PROPOSED_NO	not tested	2	0

Mechanism	Evidence Stage	Grade	Human-Reviewed Evidence	Model-Applied Evidence
	T_TESTED			
Goal Gradient	CORRELATION_TESTED	INCONCLUSIVE	0	548
Uncertainty / Ambiguity Aversion	CORRELATION_TESTED	INCONCLUSIVE	71	914
